PROFILE

I'm a fresh Software Engineer graduate with a minor in Computer Engineering, good at communicating and socializing and situation handling, open for nearly anything software related full-time jobs, part time jobs or even traineeships, because I like coding in general and I haven't decided on what coding department I want, Game development, App development, Website development, Etc.

EXPERTISE

Laravel | Python | Django workspace | MySQL | PHP | Java | C++ | Eclipse | Apache JMeter | Xampp | HTML | Unity Game Engine | Microsoft Programs (Excel, PowerPoint, etc..).

EXPERIENCE

Outfitly App In university Turkey, Istanbul.	Oct 2024 – July 2025
Outfitly was my graduation project for my Bachelors, it's a wardrobe organization app that has an integrated AI model to generate outfits out of your items. It was developed using Django, Python Flutter and TensorFlow.	
UNITY GAME ENGINE In university Turkey, Istanbul.	Oct 2024 – Dec 2024
Worked with a group of other students on a game called <i>Eary woods</i> , it was a horror Roll a ball game, and I coded Most of the logic game code (input controls, Enemy AI, etc.), and I made some design modifications.	
NUTRITRACK WEBSITE In university Turkey, Istanbul.	Oct 2023 – Jan2024
I worked with Python using Django workspace making a social based website, I did the login- and logout part of the website, and I did the testing and validation part using Eclipse and Apache JMeter.	
C++ GUESSING GAME In university Turkey, Istanbul.	Apr 2023 – May 2023
Worked in a group of 2 on this game, we made the whole game from scratch using 2 laptops- transferring the code from 1 laptop to another.	

EDUCATION

2021 – 2025

BACHELOR'S DEGREE Software Engineering Üsküdar University GPA: 3.65/4.0	2021 – 2025
MINOR'S DEGREE Computer Engineering Üsküdar University. GPA: 3.0/4.0	2022 – 2025
I hold a Bachelor's degree in Software Engineering with a Minor in Computer Engineering.	

EMPLOYMENT HISTORY

SUPERVISOR Misk Organization SA, Riyadh Part-time.	Oct 2019 – Nov 2019
I Managed attendees at AL Diriyah opening event, I was managing a game booth for a basketball minigame I developed and installed it on the site, it was a button-press timing mini-game.	
VR GAME MANAGER SAB Bank SA, Riyadh Part-time.	Aug 2023 – Sep 2023
I was managing a VR game and was responsible for modifying the game in code, so I'd make it easier or harder depending on the choice of the participant, the game wasn't coded to have difficulties, so I was hard-coding on-site modifying numbers.	
DATA COLLECTER AL Masia SA, Riyadh Part-time.	Apr 2019 – May 2019
I was collecting data for an Air conditioner company installing air conditioners in AL Riyadh school, I have had some experience with Excel modifying files with data on pricing Air conditioners and building completions.	

INTERESTS
