PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in full-stack development (Python/FastAPI, React, TypeScript, PostgreSQL) and IT support/ERP administration. Built and deployed a production helpdesk and inventory system used daily by ~300 users. Experienced with Odoo ERP customization, REST API development, and end-to-end project delivery from data modeling to UI. Fluent in English and Arabic; advanced Turkish.

SKILLS

Languages & Frameworks: Python, Django, FastAPI, PHP (Laravel), Dart (Flutter), C++, C#, Java, TypeScript, HTML

Web & Data: React, REST API Development, PostgreSQL, MySQL, SQLite, TensorFlow

Tools & Platforms: Git, GitHub, Microsoft Azure, Linux, Kali Linux, Figma, Unity, Odoo ERP, UltraVNC

Soft Skills: Leadership, Cross-functional Communication, Problem Solving, Critical Thinking, Time Management, Teamwork

WORK EXPERIENCE

IT Support Specialist | Alessa Industries - Riyadh, Saudi Arabia - 2025 – Present

- Provided first-line IT support to employees using UltraVNC Viewer, resolving hardware, software, and system issues.
- Handled Helpdesk requests, troubleshooting Windows OS, applications, network connectivity, and printers.
- Participated in ERP system setup and migration activities, including master data preparation, validation, and testing across Sales, Purchase, Inventory, and Accounting modules.
- Developed and maintained custom Odoo modules, handling end-to-end implementation including business logic, data models, and UI views to extend core ERP functionality.

PROJECTS

Helpdesk & Inventory Management System | Individual Project

- Independently built and deployed a full-stack helpdesk application serving ~300 company users, featuring a ticketing system with approval workflows, inventory management, and activity tracking.
- Developed the Python/FastAPI backend (PostgreSQL, Render) and React/TypeScript frontend (Netlify) end-to-end; delivered as a live production tool used daily.

Outfitly – AI-Powered Wardrobe App | Individual Project

- Built a cross-platform mobile app using Flutter, Django, and TensorFlow, delivering AI-powered outfit recommendations, a digital wardrobe, an outfit planner, and a social feed.

NutriTrack – Social Media App for Nutritionists | Individual Project — ~65% Contribution

- Built the backend and authentication system (signup, login, profiles, posting, follow/unfollow, search) using Django, HTML, and SQLite.
- Designed and ran test cases using Selenium and JMeter to validate functionality, usability, and performance.

EDUCATION

Bachelor of Science in Software Engineering | Üsküdar University - Istanbul, Turkey - 2021 – 2025

GPA: 3.65 / 4.0

Minor in Computer Engineering | Üsküdar University - Istanbul, Turkey - 2022 – 2025

GPA: 3.00 / 4.0

LANGUAGES

English: Fluent | Arabic: Fluent | Turkish: Advanced
